

BLATA SET-UP

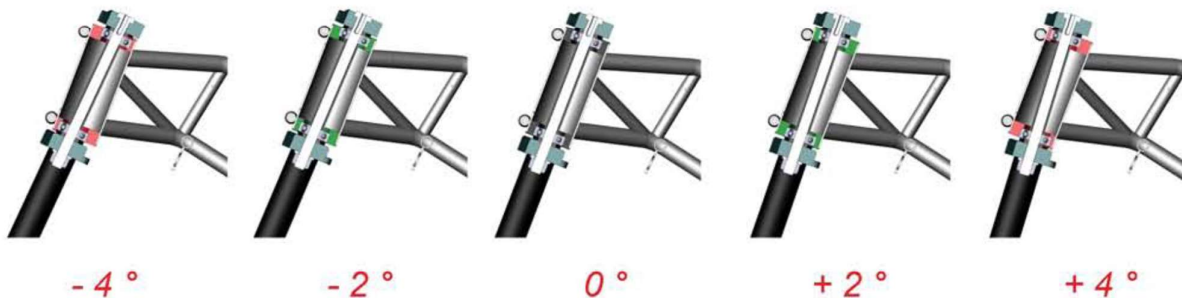

There is an ingenious system of geometry setting of the minibike Ultima. The basis spheres of setting are following – angle of steering head, foot step position and height of motorcycle (height of seat). You can change the minibike geometry in few minutes thanks to the Blata Set-Up System.

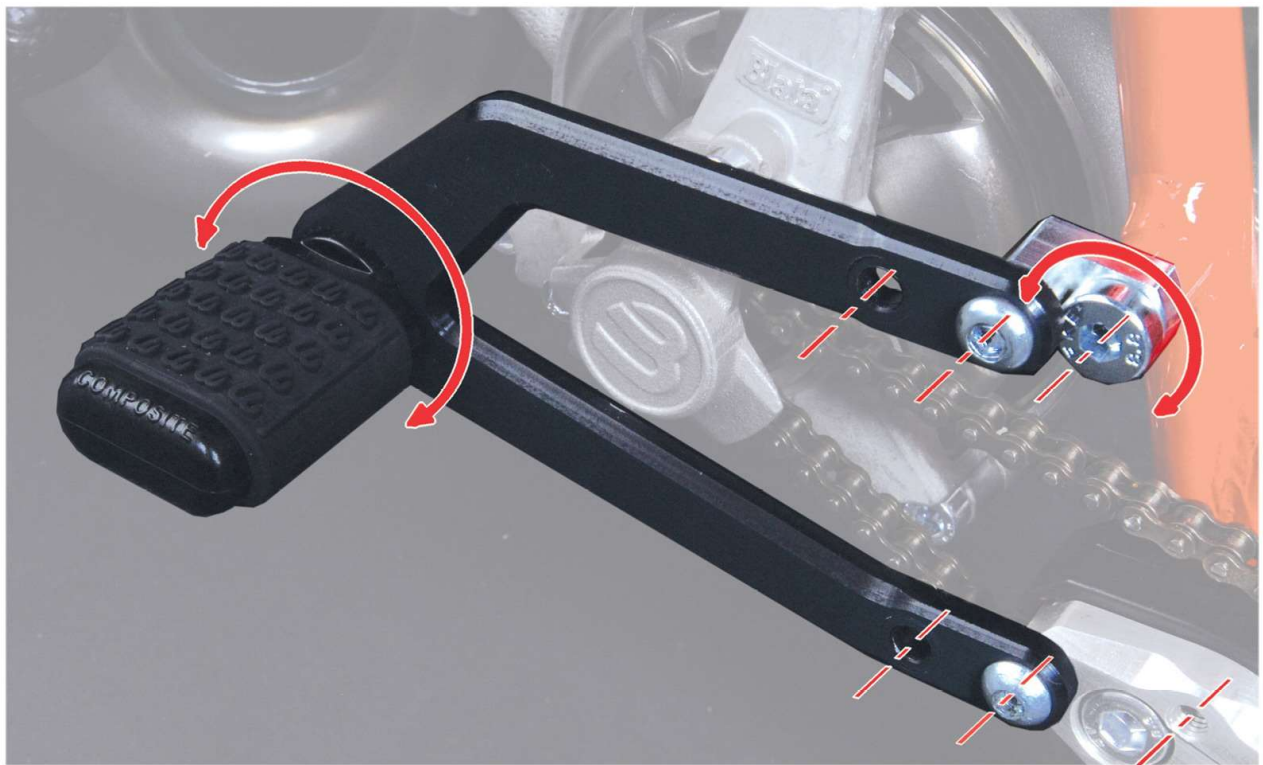

5 positions of steering head angle by means of exchangeable plates **BRC**

4 positions of rear fork support - height of seat

SETTING OF STEERING HEAD ANGLE

Steering Plates ($0^\circ \pm 2^\circ \pm 4^\circ$)

Adjustable Carbon Swingarm Struts

Adjustable screwable struts for swingarm and seat
